FINISSAGGIO

N.B. è molto importante che la maglia sia ben battuta, in quanto utilizzando filato trattato il rientro di finissaggio è limitato e una maglia troppo lenta potrebbe ulteriormente allentarsi risultando vuota.

Pertanto consigliamo prove preventive di tessitura e finissaggio.

Lo stiro con abbondante vapore è sufficiente per ottenere un ottimo aspetto della maglia. Per esaltare la sofficità e la gonfiezza del filo, si consiglia una leggera follatura in acqua a 35°C per 3 minuti con il 2-3% di ammorbidente sul peso della merce. Centrifugare. Asciugare in tumbler senza essiccare troppo. Finire stirando con abbondante vapore.

Lavabile in lavatrice
Easy care

Il filato Cashwool® SWE raggiunge gli standard previsti da Woolmark per la marcatura "Total Easy Care" pertanto se il maglificio esegue una corretta tessitura, confezione e finissaggio secondo le indicazioni Woolmark è adatto a produrre maglieria "Total Easy Care".

FINISHING

N.B. when using machine washable treated yarns it is necessary to knit tighter (increased cover factor) because during finishing generally no further consolidation of the knitting structure occurs.

Therefore, preliminary testing of knitting and finishing is necessary to verify that garments meet your expectation. Steam finishing and pressing is enough to achieve good appearance and quality. To highlight the softness and bulkiness of the yarn, a gentle wet finishing for about 3 minutes in 35°C water with 2-3% softener on the weight of the garments/panels is recommended. Hydro-extract and tumble-dry; garments should not be over-dried. Steam finish and press.

Machine washable
Easy care

Cashwool® SWE yarn meets Woolmark standards for "Total Easy Care" labelling, therefore it is suitable to produce "Total Easy Care" garments if the knitter ensures proper knitting, linking and finishing, according to Woolmark instructions.
