IMPIEGO

Rett. Fin. 12-14 | Cotton 21-24 gg | a 1 capo

FINISSAGGIO

Un normale vaporizzo durante lo stiro è sufficiente per ottenere una buona mano.

Per raggiungere la massima stabilità dimensionale e una buona morbidezza consigliamo di procedere con una leggera follatura in acqua con ammorbidente, centrifugare ed asciugare in tumbler a 85° circa senza essicare. Stirare con abbondante vapore.

NOTA

Il lino per sua stessa natura presenta peculiarità del tutto speciali, incluso - in questo caso - il suo piacevole aspetto rustico, che si esprime a volte con irregolarità di titolo e presenza di bottoni. A causa della sua naturale "rigidità", inoltre, il lino può evidenziare spirality nella maglia rasata dopo il lavaggio in acqua.

Sono quindi necessarie prove preventive di tessitura e finissaggio per verificare che i capi possiedano i requisiti richiesti.

KNITTING

Flat machine 12-14 | Cotton 21-24 gg | 1 ply

FINISHING

Normal steam pressing is sufficient to give garments a good handle.

To achieve maximum dimensional stability and a good softness, our suggestion is to lightly finish in water with softner, spin dry and tumble dry at approximately 85° without exceeding in drying. Steam pressing is enough to give garments a good handfeel.

NOTE

Linen, by its very nature, reveals very special peculiarities, included - in this case - its beautiful rough appearance, sometimes manifesting count unevenness and presence of neps.

In addition, due to linen natural "stiffness", spirality may appear on plain jersey when washed in water.

Preliminary testing on knitting and finishing is necessary to be sure that the garments meet your requirements.
