### FINISSAGGIO

Consigliamo di immergere i capi, a rovescio, in acqua con durezza inferiore a 5° Francesi, PH 5.5, la cui temperatura non superi i 30°C. Il rapporto bagno sarà 20/1 (pari a 20 litri di acqua per ogni chilo di materiale).

Lavate con sapone follante, risciacquate, scaricate l'acqua e lavate di nuovo con poco ammorbidente se lo ritenete necessario (non oltre l'1,5% sul peso dei capi, compatibilmente con il tipo di ammorbidente utilizzato).

Centrifugate un minuto o più, per eliminare tutta l'acqua.

Estrarre subito e distendere bene le maglie per evitare di rendere le pieghe permanenti.

Asciugate brevemente in tumbler ad una temperatura che non oltrepassi i 70°C.

Colori diversi necessitano tempi di follatura diversi e pertanto non possono essere trattati congiuntamente; maglie di identico colore ma lavorate su macchine di diversa finezza devono essere follate separatamente.

Poichè il risultato finale viene sensibilmente influenzato dalla fittezza del capo e dal tipo di materiale utilizzato, è necessario effettuare prove che determinino le tempistiche da adottare.

### STOCK SERVICE:

NEW GEELONG: tutti i colori sono Stock Service.

Il minimo ordinabile è di 1 scatola per colore.

Il colore 840902 (bianco naturale) NEW GEELONG e BRETON utilizzabile anche per tinto capo è da considerarsi in stock service anche se non è presente in cartella.

### SOLIDITÀ COLORI:

Rispondenti alle norme Woolmark.

Per uso in rigato con colori contrastanti richiedere solidità specifica per rigatura.

### FINISHING

We recommend to soak the garments on their reverse side in water, the hardness of which is equal or below 5° French, PH 5.5 and temperature not over 30°C. Bath ratio must be 20/1 (20 liters of water per kilogram of the garments). Wash with milling soap, rinse, drain and wash again adding a small amount of softener, if you find it necessary (not over 1,5% on the weight of the garments, depending on the type of softener used).

Spin-dry the garments for one minute or more in order to reduce the amount of water.

Lay the garments flat to avoid creases.

Briefly tumble dry at 70°C max.

Different colours require different finishing time and cannot be washed together; garments having the same colour but being knitted on different gauge/needle must be washed separately.

The final result is very much affected by the stitch length and by the type of machine used; it is thus very important to test the duration of finishing, in order to achieve the expected handfeel.

### STOCK SERVICE:

NEW GEELONG: all colors in Stock Service.

The minimum quantity per order is one box each colour.

Colour 840902 (natural white) NEW GEELONG and BRETON that can also be used for garment dye must be considered stock service, even if it is not in this colour card.

### COLOURS FASTNESS:

Woolmark standards.

In case of striped or contrast knitwear a specific dyeing fastness must be asked.
