FINISSAGGIO

Per esaltare al meglio la gonfiezza e leggerezza del filato si consiglia una leggera follatura in acqua a 30°C con ammorbidente.

Finire stirando con abbondante vapore.

Sono necessarie prove preventive di tessitura e finissaggio per verificare che i capi soddisfino i requisiti richiesti.

COLORI UNITI

Questa cartella è da considerarsi puramente illustrativa: i tre filati contemplati sono molto diversi fra loro e la riproduzione colore potrebbe variare leggermente fra una tipologia e l'altra di filato.

KNITTING

Flat Machine Gauge 3

1 Ply

FINISHING

To enhance the bulkiness and lightness of the yarn we suggest a light milling in water at 35-38°C for 2-3 minutes with a softener.

Finish giving generous steam.

To ensure that garments meet the requirements, it is necessary to test knitting and finishing settings.

SOLID COLOURS

This colour card is purely illustrative: the three yarns included are very different and the colour reproduction may slightly vary from one yarn type to another.
