FINISSAGGIO

La follatura è indispensabile per esaltare le caratteristiche del filo. Trattandosi di filato pettinato il trattamento dovrà essere leggero, consigliamo di prestirare i teli o i capi prima di procedere alla follatura. Trattare in acqua 30°-35°C, con sapone neutro e/o ammorbidente al 2-3% sul peso merce per un tempo di 2-3 m. Asciugare in tumbler avendo cura di non essiccare troppo. Finire stirando con abbondante vapore.

Sono necessarie prove preventive di tessitura e finissaggio per verificare che i capi soddisfino i requisiti richiesti.

COLORI UNITI: Si possono tingere tutti i colori delle cartelle stagionali e colori a richiesta.

FINISHING

Milling is necessary to enhance yarn features and softness. This worsted yarn requires a delicate finishing, we also recommend to pre-steam the knits before milling. Finish in water at 30°-35°C using 2-3% soap and/or softener on goods' weight for 2-3 min. Tumblerdry.

Do not over-dry. Finish giving generous steam.

Preliminary testing on knitting and finishing is necessary to verify that garments meet requirements.

SOLID COLOURS: Seasonal colour cards as well as custom-made colours can be dyed.
